

## COMPLEMENTOS

En Complementos hemos reunido a los indispensables: columpios para uno o varios usuarios, columpios tradicionales o adaptados a niños con diversidad funcional; carruseles, espirales; toboganes especiales y terraplenes... Esos elementos sin los que ningún espacio infantil puede considerarse completo. Por eso nuestros Complementos están pensados para combinar de manera armoniosa con todo tipo de entornos y con el resto de elementos del catálogo de Galopín.

En algunos casos pueden reforzar el carácter te-

mático de un parque, ya que ofrecemos también fachaditas tematizadas. En otros, actúan como elementos de transición entre zonas de juego de diferentes características. Por su variedad y tamaño se convierten en la solución perfecta para poner en valor chaflanes, espacios reducidos o zonas que no admiten la instalación de elementos más complejos.

La gama Complementos representa un ejercicio continuo de creatividad y diseño de nuestro equipo, que busca siempre nuevos modos de interpretar algunas de las formas clásicas del juego infantil de todos los tiempos.

**FR**  
Dans la gamme Complementos nous avons réuni les indispensables : balançoires pour un ou plusieurs utilisateurs, balançoires traditionnelles ou adaptées aux enfants à la diversité fonctionnelle, carrousels, spirales, toboggans spéciaux et de butte... Des éléments sans lesquels aucun espace pour enfants ne peut être considéré comme complet. C'est pour ça que nos accessoires ont été conçus pour s'intégrer harmonieusement dans tous types d'environnements et avec l'ensemble du catalogue de Galopín.

Dans certains cas, ils peuvent renforcer le caractère thématique d'un parc, puisque nous proposons également des façades à thème. Dans d'autres, ils agissent comme des éléments de transition entre des zones de jeu de caractéristiques différentes. En raison de leur variété et de leur taille, ils sont la solution parfaite pour mettre en avant de petits espaces ou des zones qui ne permettent pas l'installation d'éléments plus complexes.

La gamme Complementos représente un exercice continu de créativité et de design de nos équipes, qui sont toujours à la recherche de nouvelles façons d'interpréter certaines des formes classiques des jeux de tous les temps.

**EN**

In Complementos, we have grouped together all those accessories that are essential: swings for one or several users, traditional or adapted to children with functional diversity; carousels, spirals; embankment & other special types of slides... All those elements whose absence in a space dedicated to children would make it incomplete. That's why our accessories are designed to harmoniously combine with all types of environments as well as with the rest of the products in Galopín's catalogue.

In some cases, they can help reinforce the central theme of a playground, since we also offer themed play panels. In others, they act as transition elements between the various play areas having different characteristics. Due to their variety and size, they are the perfect solution for small spaces or areas that do not allow the installation of more complex elements.

The range Complementos illustrates the continuous brainstorm of creative design ideas of our team, who is constantly looking for new ways to reinterpret some of the most classical children's games of all time.

## MOBILIARIO

Como ocurre con el resto de los espacios públicos, parques y zonas de ocio no pueden considerarse completos sin la aportación del Mobiliario. En Galopín nos guiamos por el deseo de llevar al espacio público, esa casa de todos, la sensación de bienestar y confort de la que gozamos en nuestros hogares.

Elementos de señalética, papeleras, paneles informativos, cerramientos... buscamos diseños sencillos, que se integren con el entorno y con el resto de productos de nuestras gamas. Que guíen e informe de manera clara para que los

usuarios de los parques cuenten siempre con los datos o los servicios que necesitan.

Y cuidamos especialmente las mesas, los bancos y los elementos de asiento. Porque los parques no son solo el territorio natural de los niños, sino también de los adultos y los abuelos. Por eso estudiamos las curvas de los respaldos o los ángulos de los asientos con la misma atención con que diseñamos todos nuestros juegos. Un asiento bien diseñado es descanso, hora de la merienda, lugar donde dejar la ropa que sobra durante el juego y recuperamos luego para que no se enfríen. Y es diálogo, tertulia y convivencia.

EN

As is the case with all public spaces, parks and leisure areas cannot be considered complete without the presence of Furniture. In Galopín we are guided by the desire to bring to the public space - that house we all share - the feeling of comfort that we enjoy in our homes.

Signs, bins, information panels, fences ... we look for simple designs that can be integrated into the environment and with the rest of the products from our ranges. Elements to guide and inform in a clear manner so that park users always have the data or services they need.

We take a special interest in the tables, benches and seating elements because parks are not only the natural setting of children, but also of adults and grandparents. That's why we study the curves of the backs or the angles of the seats with the same attention with which we design all our games. A well designed seat means rest, snack time, a place to leave the clothes that is not needed during playtime and then recovered to avoid getting cold. It is a dialogue, a social gathering and a coexistence.

FR

Comme dans le reste des espaces publics, les parcs et les zones de loisirs ne peuvent être considérés complets sans la contribution du mobilier. Chez Galopín nous sommes guidés par le désir d'apporter à l'espace public, cette maison de tous, le sentiment de bien-être et de confort que nous apprécions chez nous.

Éléments de signalisation, poubelles, panneaux d'information, palissades... nous recherchons des designs simples, qui s'intègrent à l'environnement et au reste des produits de nos gammes. Pour guider et signaler clairement afin que les utilisateurs du parc aient toujours les informations ou les services dont ils ont besoin.

Nous prenons particulièrement soin des tables, des bancs et autres éléments d'assise parce que les parcs ne sont pas seulement le territoire naturel des enfants, mais aussi celui des adultes et des grands-parents. C'est pourquoi nous étudions les courbes des dossiers ou les angles des sièges avec la même attention que nous portons à la réalisation de tous nos jeux. Un siège bien conçu est synonyme de repos, de temps de collation, c'est l'endroit idéal où laisser ses vêtements pendant le jeu. C'est aussi une invitation au dialogue, la rencontre sociale et la coexistence.

Sports et Santé

FR

Notre société valorise de plus en plus des habitudes saines et la qualité de vie. Notre gamme de Sports et de Santé a été créée pour encourager la pratique de l'exercice physique, indépendamment de l'âge ou du degré de préparation physique.

Pour répondre aux niveaux plus exigeants, nous avons créé la variante Callisthenique, qui cherche le développement de l'agilité, la force et la flexibilité avec un travail basé sur le mouvement du poids corporel sur les barres horizontales ou les bancs abdominaux, entre autres éléments.

Les « Saludables » rassemblent les besoins de base pour l'entretien du corps d'un adulte. On y trouve des éléments permettant aux personnes âgées de travailler leurs articulations, et proposant des exercices simples qui améliorent assidûment la vitalité. D'un autre côté, il y a aussi des éléments en bois, nos éléments Senior, conçus pour encourager l'exercice aérobique modéré, afin de promouvoir le bien-être de manière saine.

Nous proposons aussi des éléments pour réaliser des circuits à vélo, avec des rampes, des éléments en zig-zag, des obstacles ... le but est d'ajouter de nouveaux défis dans la pratique de l'exercice de ceux qui sortent faire des parcours en montagne ou en ville. Et bien sûr, nous ne laissons pas de côté les terrains multisports pour pratiquer des jeux d'équipe tels que le football ou le basketball. Parce que le sport, comme le jeu, n'est pas seulement l'exercice, mais l'interaction avec les autres. Nos éléments Sports et Santé sont conçus pour être associés aux différentes gammes de jeux pour enfants, pour concevoir des décors facilitant les loisirs en famille et la cohabitation intergénérationnelle.

EN

Our society values more and more healthy habits and wellbeing. Our range of Sports and Health equipment emerges from the desire to encourage physical exercise, regardless of age or physical condition.

For a more demanding workout, we have the Calisthenics variant, which seeks the development of agility, strength and flexibility based on the movement of the user's body weight on horizontal bars or abdominal benches, among other elements.

The Urban Health equipment is aimed at meeting the basic needs of adults when it comes to body maintenance. Here you can find units that focus on joints for the older generation, and propose simple and mild exercise, that when performed regularly improves vitality. Additionally, our wooden Senior elements are designed to encourage moderate aerobic exercise, promoting wellness in a healthy way.

We also have units for creating bicycle circuits, with ramps, zigzags, obstacles, etc., a complementary exercise for those who enjoy mountain biking and riding in general. And of course, we cannot forget multipurpose playing courts to practice team sports, such as football or basketball. Because sports, like play, not only provides physical exercise, but also encourages interaction with others. That is why our Sports and Health units are designed to be combined with the different ranges of children's games, to design sets that facilitate family leisure and intergenerational relationships.

## DEPORTE Y SALUD

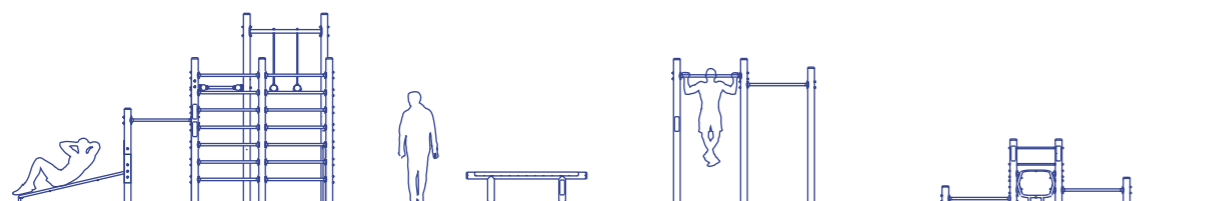

Nuestra sociedad valora cada vez más los hábitos saludables y la calidad de vida. Nuestra gama de Deporte y Salud surge para animar a la práctica del ejercicio físico, con independencia de la edad o del diferente grado de preparación.

En un nivel de mayor exigencia tenemos la variante Calistenia, que busca el desarrollo de la agilidad, la fuerza y la flexibilidad con un trabajo basado en el movimiento del propio peso corporal en barras horizontales o bancos de abdominales, entre otros elementos.

Los Saludables urbanos recogen las necesidades básicas para el mantenimiento del cuerpo de un adulto. Cuentan con elementos centrados en las articulaciones para los más mayores, y propone ejercicios sencillos y

suaves que realizados con asiduidad mejoran el tono vital. Por otra parte también existen elementos en madera, nuestros elementos Senior, pensados para promover el ejercicio aeróbico moderado, de manera que se fomente el bienestar de modo saludable.

También contamos con elementos adecuados para diseñar circuitos de bicicleta, con rampas, elementos de zig-zag, obstáculos... una apuesta que complementa el ejercicio de quienes salen a realizar trayectos de paseo o montaña. Y por supuesto, no dejamos de lado las pistas multideporte para practicar juegos de equipo como fútbol o baloncesto. Porque el deporte, como el juego, es no solo ejercicio, sino interacción con los demás. Por eso, nuestros elementos de Deporte y Salud están pensados para combinarse con las distintas gamas de juegos infantiles, para diseñar conjuntos que faciliten el ocio familiar y la convivencia intergeneracional.

# CANES

Las ciudades son entidades dinámicas y quienes actuamos en ellas debemos estar siempre atentos a las nuevas demandas de sus habitantes. En las últimas décadas se ha incrementado la necesidad de zonas acotadas en las que los dueños de mascotas puedan disfrutar de un rato de ocio con sus animales.

Nuestra gama Canes responde a este nuevo estilo de vida desde una triple premisa de bienestar: garantizar módulos de ejercicio adecuados para los animales; garantizar un diseño de parque que responda a las demandas de sus dueños; garantizar una correcta delimitación de zonas. Porque aunque defendemos el contacto con la naturaleza como fuente de bienestar, dicho contacto debe de ser siempre voluntario.

Asesorados por veterinarios y entrenadores, hemos adaptado al entorno urbano algunos de los elementos de los circuitos de agility, al tiempo que proponemos una guía básica de confección de espacios para ocio compartido: recinto vallado; entrada con doble puerta, para evitar que los perros escapen cuando entra un nuevo visitante, fuente con agua, expendedores de bolsas para excrementos, bancos para los dueños... El ocio con animales supone una fuente de bienestar y el diseño de este tipo de espacios fomenta la tolerancia cívica: todos podemos compartir los espacios públicos desde la premisa del respeto y la seguridad.

EN

Cities are dynamic entities, and those of us who are dedicated to working in this field must always be in tune with the new demands of their inhabitants. In recent decades, we have seen an ever-growing need for areas that are closed-off and where pet owners can enjoy leisure time with their cherished companions.

Our CANES range responds to this new lifestyle parting from a triple premise: to provide exercise modules that are suitable for pets, to offer parks designed to meet the demands of their owners, and to guarantee parks with well-defined boundaries of the area. Although we advocate contact with nature as a source of wellbeing, this contact must always be voluntary.

Following the advice of veterinarians and trainers, we have adapted some of the elements of the dog agility circuits to the urban environment, while also proposing a basic guide to the layout of such spaces for optimal shared leisureed activity: a fenced area; double door access to prevent dogs from running out when a new visitor comes into the area; including a water fountain; providing bag dispensers for excrements; adding benches for pet owners, etc... Spending leisure time with pets is a new social trend, and the design of this type of space fosters civic tolerance: we can all share public spaces if we foster respect and security.

FR

Les villes sont des entités dynamiques et ceux qui y agissent doivent toujours être attentifs aux nouvelles demandes de leurs habitants. Au cours des dernières années, le besoin de zones dédiées aux animaux s'est accru, pour permettre à leurs propriétaires de passer du temps avec eux.

Notre gamme Canes répond à ce nouveau style de vie selon un triple principe de bien-être : offrir des modules d'exercices adaptés aux animaux ; garantir une conception de parc répondant aux demandes des propriétaires ; délimiter correctement ces espaces. Car si nous défendons le contact avec la nature comme source de bien-être, ce contact doit toujours être volontaire.

Conseillés par des vétérinaires et experts du monde animal, nous avons adapté à l'environnement urbain certains éléments des circuits d'agilité, tout en proposant un guide de base pour la réalisation d'espaces de loisirs partagés: enceinte clôturée, entrée avec double porte pour empêcher les chiens de s'échapper quand arrive un nouveau visiteur, fontaines à eau, distributeurs de sacs pour déjections canines; des bancs pour les propriétaires des chiens ... Le loisir avec les animaux est une source de bien-être et la conception de ce type d'espace favorise la tolérance civique : nous pouvons tous partager les espaces publics en respectant les principes de respect et de sécurité.
